

The ColorPrint Personality Profiling System™

The art and science of living an inspired life.

What is the ColorPrint™?

The **ColorPrint** is a vibrational signature based on the energy currents of the human body. Every human being has a **unique set of colors** which resonate with those energy currents. Each color in the ColorPrint System corresponds to a specific set of personality traits and natural strengths.

Unlike other personality profiles, there are no questions to answer in order to discover your ColorPrint. Your innate gifts and talents, and the keys to living an inspired life, are written energetically in your body's own cells. Your vibrational signature can be evaluated in 15 minutes by a trained consultant using a pulse analysis and kinesiology test.

Your ColorPrint specifies unique aspects of your nature. The information it provides can guide you in living a successful and dynamic life. It will indicate your inborn gifts and talents, and assist you in unlocking and amplifying your innate potential.
